Chicago Grain and Produce.

Chicago, June 3.—In wheat the bulls had several good reasons for maintaining their leading position to the market. Yesterday's large cash business (over \$150,000) was in itself a sufficient reason for the strength with which the market opened; but added to this was an opening advance at Liverpool of \$46154. The market, in fact, supplied the bulls with all the ammunition they needed.

The sympathetic character of the continental markets emboldened the short sellers near the end of the session and caused July to sell down again to \$85s, which was its closing price.

MR. ROWE'S SIDE. Denies the Accuracy of the Council's Figures.

Aultyon hever forgets the children. He realizes a mother's responsibility and is ever ready to give her the benefit of his knowledge and experience. Mun-yon's Guide to rically, which may be obtained free from any druggist, is expecially explicit in describing all children's discusses, and gives plain and id election which is

to this question and that the water company had some advantage in the controversy which it was unwise to overlock.

Being desirous of giving both sides a hearing a Heraid representative yesterday called on W. H. Rowe of the waterworks company and asked him as to the several matters contained in the published reports and estimates of the water commission. Mr. Rowe stated that while he had given the engineer's report only a cursory examination he had detected errors in it which made it unreliable. For instance, no estimates were made as to a certain kind of valves necessary to the system and which will cost several thousand dollars. Mr. Rowe intimated that he was preparing a statement which would answer the report in detail and that until then he did not care to discuss the matter.

As to the charge that the company is sending the money out of this country, Mr. Rowe said it was absurd. About 12,000,000 of foreign capital has been invested in the water works, and street car system and the Bear river country, and not one dollar of interest has yet been paid back.

His company, he says, has a schedule of rates lower than the schedule of fates schedule is charged in overything except saloons, where the maximum of the fixed schedule is charged in overything except saloons, where the maximum of the fixed schedule is charged in overything except saloons, where the maximum of the fixed schedule is charged in the Engineering News. Mr. Rowe said it did not supply the figures and did not know if they were accurate. Mr. Hardesty, he understood secured information just as any other reporter. Even if his report was correct it was not complete enough to allow any one to calculate with any accuracy the cost of the system. can be no mistake.

AN UNDERSTANDING REACHED. AN UNDERSTANDING REACHEST.

The council held a special session, commencing at 5;30 in the afternoon, and the mayor formally reported that the water commission had visited Mr. Rowe, who had refused to give the commission the information as to the cost of the system of waterworks. The mayor appended Mr. Rowe's letter, in which he stated that he would give them the desired information if the council would pass a resolution declar-council would pass a resolution declarcouncil would pass a resolution declar-ing that it was their purpose to buy

Board of Education.

The board of education met in special session last night to consider the aelection of text books for the coming five years. Twenty-six scaled bids were opened, the reading of which occupied about two hours. The members then listened to the agents of two firms who publish music books, but action was deferred until Saturday. The clerk was instructed to tabulate the bids and have them ready for consideration on Saturday night, particularly the books on reading, arithmetic, spelling and grammar, as they will be considered first.

County Commissioners.

County Commissioners.

The board of county commissioners have been in executive excision for the past two days and it is known that they are seriously considering the matter of curtailing excenses by cutting down the force, particularly in the clerk's office, but no public action will be taken until Monday, to which time the board adjourned.

Yesterday the heard spent some time considering the help to be given to the collector. Those well informed on the situation say that Collector Chambers has selected as his deputies George M. Hansen, S. W. Chambers and Dan Ellin, but it is not known whether these sentlemen will accept unless the commissioners allow larger calaries than they seem inclined to do.

Is Your Throat Weak?

Your throat is weak. Any unusual exposure or quick change in temperature causes roughness and uneasiness. Sometimes you have a feeling of tightness as if some foreign body were there. You can treat it with troches and washes, but you don't reach the seat of the trouble. Throat weakness is a symptom of more general disturbance. Scott's Emulsion of Codliver Oil does cure weak throats by nourishing and strengthening the system. Book about it sent free.
